

A white Moody DS54 sailboat is shown from a side profile, sailing on a choppy sea. The boat has two large, dark sails deployed. Two people are visible on the deck. The background is a hazy, sunset or sunrise sky. The text 'DS54' is overlaid in the top right corner.

DS54

The Moody logo consists of a stylized, white, curved graphic element resembling a wave or a sail, followed by the word 'Moody' in a serif font.

The Moody deck saloon 'one level living' concept takes a unique approach to modern yacht design. Simply open the sliding doors and you'll enjoy a panoramic view from the living area and the spacious cockpit on the same level. The combination of the large cockpit with a cockpit table as standard and open afterdeck is ideal for spending time with family and friends. Welcome aboard.

Spacious stowage for dinghy or swimming equipment

Opening the bimini top creates a large space flooded with sunlight

Preciously furnished owners cabin with luxurious ambience

Roomy VIP-cabin providing much locker stowage

Shower area en-suite to both guest cabins

Galley and saloon share the stunning 360° panoramic view

living on one level  
& luxurious comfort

Those who prefer a cooking area separated from the saloon choose the cabin concept with a large galley down. This version offers more working space and stowage room. Moreover, it allows for so much daylight it doesn't feel like being down in the hull. No matter which kind of galley you like better: It will be provided with every convenience you expect from a fully-equipped house kitchen. All working tops are made of CORIAN®. This premium surface combines high performance with outstanding aesthetics. It is noted for seamless appearance and stunning effects of colour and translucency.

living on one level  
& luxurious comfort

The helmseat is the spot where all threads come together. From the engine to the sails, any part can be controlled by a single helmsman. For long distance sailing it is highly desirable to operate the boat from inside, which can be easily done by the autopilot system in the saloon.

easy handling  
& perfect control

easy handling  
& perfect control

Pushbuttons for electronic winches

Modern autopilot allows steering from inside

Drive-by-wire technology ensures groundbreaking engine control

Furling mainsail

Self-tacking jib for simplified boat handling

Bow and sternthruster joystick

Aboard the Moody DS54, everyone enjoys the feeling of moving safely. An extra-high bulwark, holders on the saloon roof and the fixed railing give a secure passage along the side deck even if the wheather gets rough. This is particularly appreciated by little boaters like children and animals.

The Moody DS54 is a true ocean cruising yacht. Her design incorporates a high degree of seaworthiness and independence. Highlights include exceptional refrigeration, water and diesel capacities, a walk-in motor compartment and workshop, a solid watertight bulkhead in the bow and much more besides.

Integrated windlass

Easily accessible storage locker

Solid bulwark with guardrail

All elements of the Moody DS54 are elaborately manufactured and most precisely fitted wherever you look at. Electronical components, mechanical parts, furniture: Each detail meets the highest standards and serves the intention to make your cruise as comfortable as possibly can be – under any conditions.

handcrafted quality  
& high-tech

handcrafted quality  
& high-tech

Solid wooden fiddles with textile inlay

Flush metal pushlock

Experience a fine and perfect interior with solid woods plus a classic teak deck where handcrafted solidity meets modern design. The Moody DS54 benefits from an extra-safe construction with strong bulkheads sturdily connected with hand-laid laminates to the hull and deck.

tradition meets  
modernity

Full control at navigation area

Classically arranged teak

Finest furnishing and latest TV-technology for the guests

C-zone Bus-System

By the state-of-the-art BUS-System, the skipper adjusts major technical functions to particular boating situations such as sailing away, beeing offboard or boating at night. This is easily done by using a single control panel in the hallway.
